TECU ECO-TIP A full bathtub needs about 70 gallons of water, but taking a five-minute shower saves water by using 10 to 25 gallons. Put a timer or clock near your shower. Save even more water, and money on your water bill, by installing a water-efficient showerhead.

Most people complete their deposit in less than a minute and can do it from anywhere and at any time, day or night. It could take 2-3 Business Days for the funds to be deposited into your account. As in our existing practice with cheques deposited into an ATM, there will be a 5-day hold on all cheques deposited through this service. Please give us a call if you have any questions.
